

<Information on the Countries excluded from Quarantine Exemption for Those who have completed Vaccination>

- The countries that are excluded from the application of self-quarantine exemption when those who have completed vaccination enter Korea are as follows:

* However, the measures related to the Omicron variant may be frequently changed, when the details are planned to be announced again.

【Main Content】

- We inform you that the countries that are excluded from quarantine exemption for those who have completed vaccination of which the designation is in effect from Dec. 3, 2021 is extended and expanded to all countries/regions due to the global proliferation of a new virus variant (Omicron) that has broken out recently in South Africa and so on.
 - All entrants from the countries that are excluded from quarantine exemption for those who have completed vaccination shall be excluded from quarantine exemption regardless of vaccination completion.
 - ※ Holders of an overseas vaccination completion/quarantine exemption certificate or an overseas vaccination completion certificate shall be also excluded from the application of quarantine exemption.
 - * **Countries that are excluded from quarantine exemption for those who have completed vaccination: All countries/regions**

【Application period】

- Entrants from Jan. 7, 2022 (0 o'clock) ~ Feb. 3, 2022 (24 o'clock)

【Reference】

- An announcement is planned to be made when the countries that are excluded from quarantine exemption for those who have completed vaccination are changed.
 - However, the measures related to the Omicron variant may be frequently changed depending on the trend of the Omicron variant outbreak, when the details are planned to be announced again.
